SYNOPSIS

Pam, a woman seeking an alternative to today's lifestyle, visits Morning Star and meets Lou Gottlieb, owner and caretaker. Lou takes her back in time on his journey through those tumultuous times, when his conscience directed him to go against the Law of the Land, and how his decisions affected him and the greater community. Based upon the true story of Morning Star Ranch, the unintentional commune growing on a piece of land open to all by Lou Gottlieb, *MorningStar* is a story of people who are attempting to at least raise the question of how human beings should live with the earth and how society at large reacts to them. A local event which took place at a specific time (Occidental, California from the mid 1960s to the early 1970s), *MorningStar* is also a universal story that occurs both constantly and cyclically throughout eternity.
